# John Godwin

## Front-End Developer

## WORK EXPERIENCE

Frontend Development 2020 - Present

### Frontend Mentor Projects

Completed multiple projects from Frontend Mentor, including:

Chat App Illustration, Testimonials Grid Section, Clipboard Landing Page, News Letter Success Message, NFT preview card, Ordered Summary Card and more

Implemented pixel-perfect designs and responsive layouts based on provided design specifications.

Utilized HTML, CSS, and JavaScript to bring static designs to life and enhance user interactivity.

Showcased attention to detail and adherence to best coding practices in project solutions.

Frontend Development 2021 - Present

### Personal Projects

Developed a personal portfolio website to showcase skills, projects, and achievements.

Designed a clean and intuitive user interface using HTML, CSS, and JavaScript.

Implemented a responsive layout for optimal viewing across various devices.

Integrated project showcases with details on technologies used and project outcomes.

Frontend Development 2022 - Present

### Vortex Horizon Website

Developed and launched "Vortex Horizon," a website dedicated to web design, development, and 3D modeling.

Integrated a user-friendly interface with seamless navigation for showcasing design and development projects.

Developed dedicated sections to highlight a diverse range of web design, development, and 3D modeling projects.

Implemented features such as image galleries, project descriptions, and interactive components to provide a comprehensive overview of each project.

## SUMMARY

Results-oriented and highly motivated self-taught front-end developer with a passion for creating visually appealing and responsive websites. Proficient in HTML, CSS, and JavaScript, with hands-on experience in building dynamic user interfaces using React. Adept at translating design concepts into functional and interactive web applications. Proven ability to collaborate effectively in team environments and committed to staying updated with the latest industry trends and technologies. Seeking an opportunity to contribute technical skills and creativity to a dynamic development team.
